

Assignment -4

Docker and Kubernetes

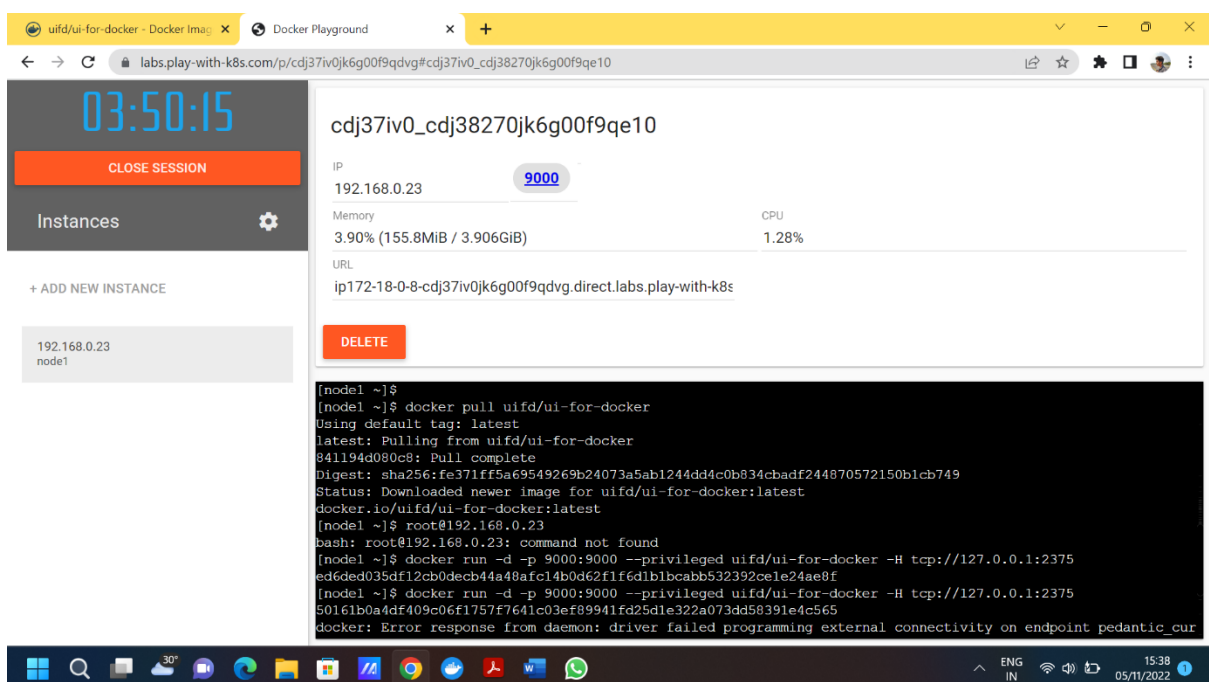

Assignment Date	21 October 2022
Student Name	Ranjith V
Student Roll Number	722819104112
Maximum Marks	2 Marks

Question-1:

Pull an Image from docker hub and run it in docker playground.

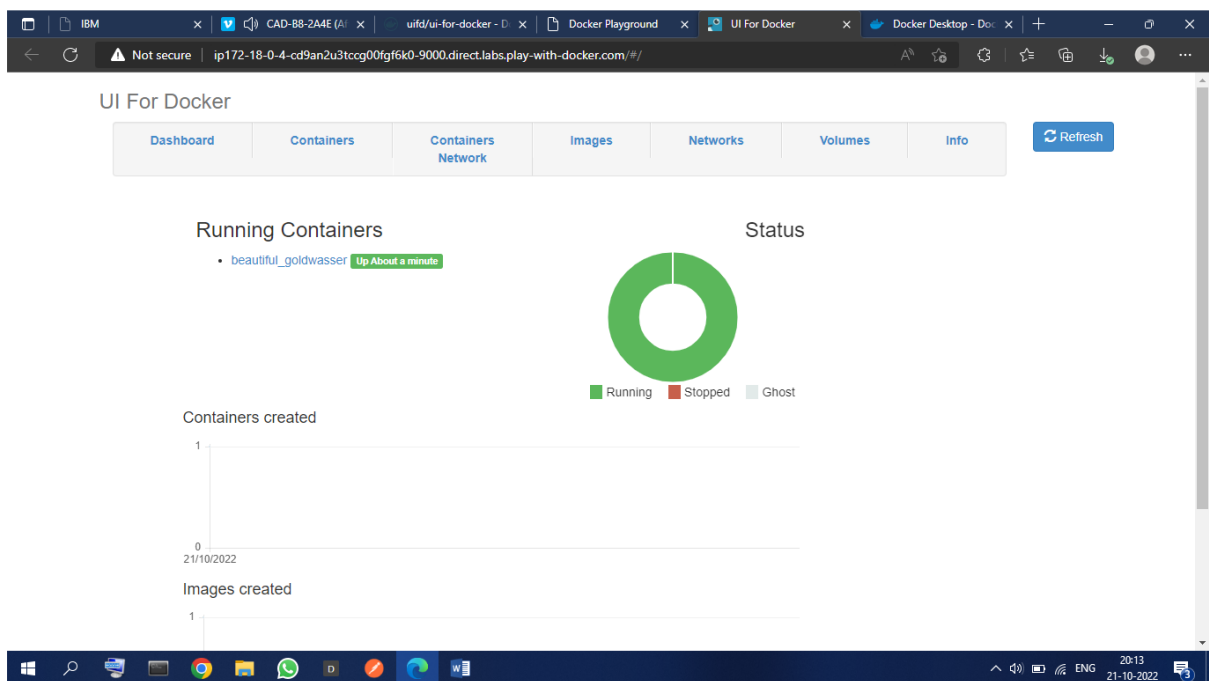

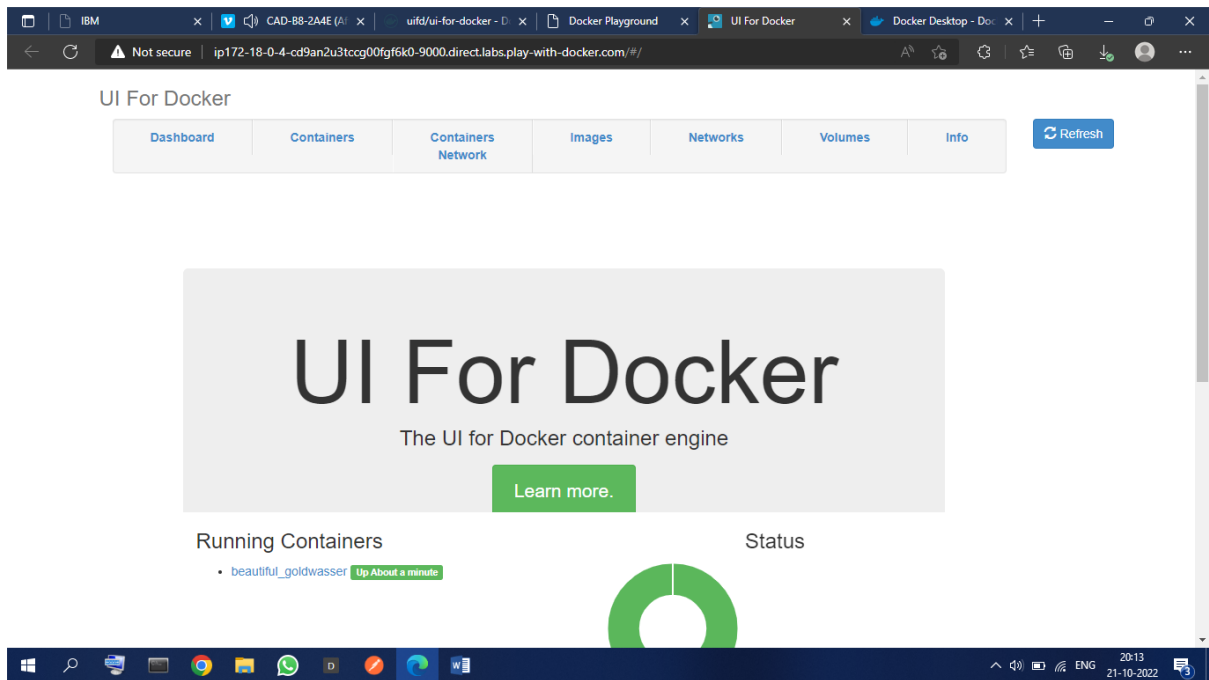

The screenshot shows the Docker Hub page for the repository `uifd/ui-for-docker`. The page header includes the Docker Hub logo, a search bar with the text `uifd/ui-for-docker`, and navigation links for Explore, Repositories, Organizations, and Help. The repository page shows a blue cube icon, the name `uifd/ui-for-docker`, and a star icon. Below the icon, it says "By uifd · Updated 6 years ago" and "A web interface for Docker, formerly known as DockerUI. Deprecated, use Portainer for new features." The page also shows a "Pulls 10M+" badge. The "Overview" tab is selected, showing a description of the repository and a "chat on gitter" link. The "Tags" tab is also visible. A "Docker Pull Command" box shows the command `docker pull uifd/ui-for-dock..`.

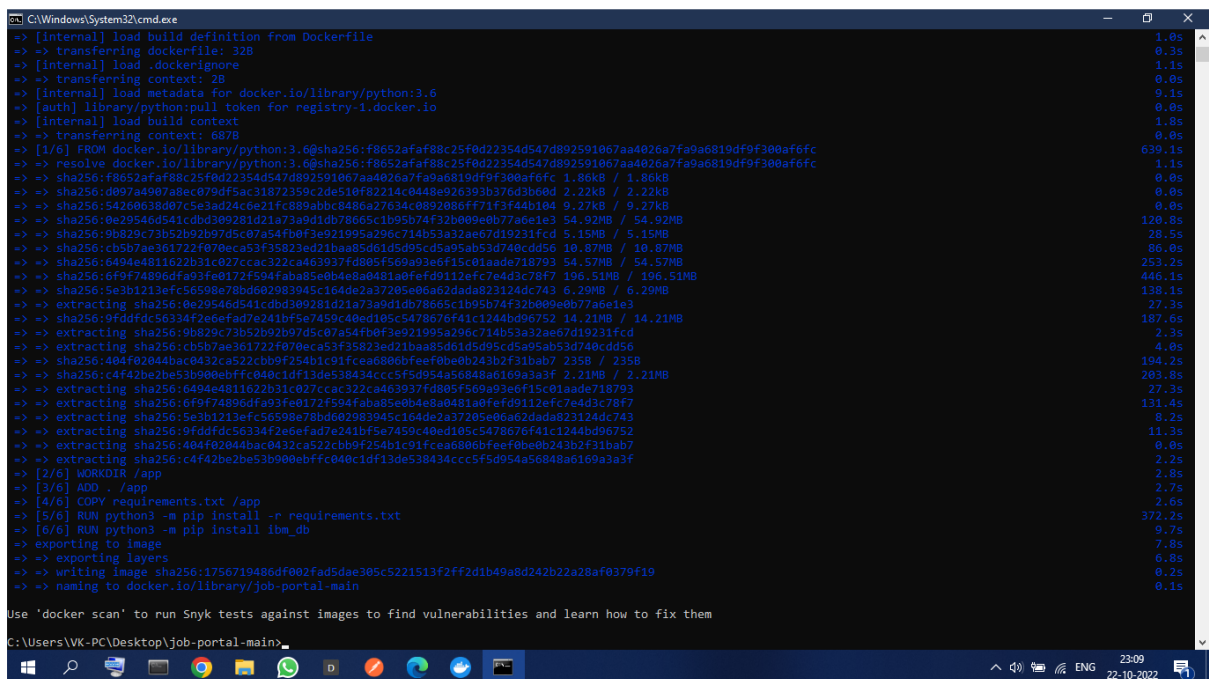

The screenshot shows the Docker Playground interface. The top bar displays the time `03:50:15` and a "CLOSE SESSION" button. Below this, the "Instances" section shows a list of instances, including one with IP `192.168.0.23` and name `node1`. The "ADD NEW INSTANCE" button is visible. The main area shows the details of the selected instance, including its IP `192.168.0.23`, memory usage `3.90% (155.8MiB / 3.906GiB)`, CPU usage `1.28%`, and URL `ip172-18-0-8-cdj37iv0jk6g00f9qdvq.direct.labs.play-with-k8s`. A "DELETE" button is present. The terminal window shows the following commands and output:

```
[node1 ~]$  
[node1 ~]$ docker pull uifd/ui-for-docker  
Using default tag: latest  
latest: Pulling from uifd/ui-for-docker  
841194d080c8: Pull complete

```

Question 2:

Create a docker file for the jobportal application and deploy it in Docker desktop application.

Question 3:

Create a IBM container registry and deploy helloworld app or jobportalapp.

Question 4:

Create a Kubernetes cluster in IBM cloud and deploy helloworld image or jobportal image and also expose the same app to run in nodeport

The screenshot shows the IBM Cloud Kubernetes dashboard. The cluster is named 'mycluster-free' and is in the 'Preparing master, workers...' state. The 'Worker nodes' tab is selected, showing a table with one node.

Name	Status	Worker pool	Zone	Private IP	Public IP	Version
000000b2	Normal	default	Milan 01	10.144.183.56	169.51.194.202	1.24.6_1541

The dashboard also includes a sidebar with 'Overview', 'Worker nodes', 'Worker pools', and 'DevOps'. The 'DevOps' section has a 'New' button. The bottom of the screen shows a Windows taskbar with various application icons and a system clock indicating 00:36 on 02-11-2022.
