Project Design Phase-I
Proposed Solution Template

Date	19 September 2022
Team ID	PNT2022TMID19420
Project Name	Smart Fashion Recommender
Maximum Marks	2 Marks

Proposed Solution :

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Finding fashionable clothing and accessories online can be challenging for customers.
2.	Idea / Solution description	Customers shop online directly based on their preferences without conducting any searches.
3.	Novelty / Uniqueness	The customer will converse with the chatbot about the products. Obtain recommendations based on the user's information
4.	Social Impact / Customer Satisfaction	The user-friendly interface and chatbot assistants for finding dresses satisfy customers.
5.	Business Model (Revenue Model)	The customer is sold our products by the chatbot. Customers purchase our goods, which generates income.
6.	Scalability of the Solution	Our applications may be simply scaled up by adding more items and goods.
